

Symbol:	SR102320KAG
Product groups:	Rotary Switches

Product specifications

Type of switch:	rotary
Number of positions:	3
Stable positions number:	3
DC contacts rating @R:	0.1A / 16V DC
Poles number:	2
Indexed positions:	30°
Leads:	for PCB
Contact material:	brass
Switching method:	MBB (shorting)

Max. contact resistance::	100mΩ
Body material:	PBT
Min. insulation resistance:	0.1GΩ
Mechanical durability:	10000 cycles
Shaft surface:	knurled
Shaft diameter:	6mm
Shaft length:	20mm
Fastening thread:	M7x0,75
Switching torque:	2.9Ncm
Operating temperature:	-30...80°C

Additional information

Gross weight:	0.007 kg
