

Symbol:	SILI150X220
Product groups:	Heatsinks - equipment

Product specifications

Type of heat transfer pad:	silicone caoutchouc
Length:	0.22m
Width:	0.15m
Thickness:	0.23mm
Thermal conductivity:	1W/mK
Flammability rating:	UL94V-0
Operating temperature:	-60...200°C
Version:	glass fiber reinforced, glueless

**Min. breakdown
voltage:**

5kV/mm

Additional information

Gross weight:

0.012 kg
