

Symbol:	SILI300X300
Product groups:	Heatsinks - equipment

Product specifications

Type of heatsink accessories:	heat transfer pad
Kind of heat transfer pad:	silicone caoutchouc
Length:	0.3m
Width:	300mm
Thickness:	0.3mm
Thermal conductivity:	1W/mK
Flammability rating:	UL94V-0
Operating temperature:	-60...200°C

Product card SILI300X300

Version:	glass fiber reinforced, glueless
-----------------	----------------------------------

Min. breakdown voltage:	5kV/mm
--------------------------------	--------

Additional information

Gross weight:	0.04 kg
----------------------	---------
