| <b>Produktgruppe:</b> | DIN 41.612-, DIN 41.617-Steckverbinder |
|-----------------------|----------------------------------------|

## Produktparameter

|                            |           |
|----------------------------|-----------|
| <b>Steckverbinder-Typ:</b> | DIN 41612 |
|----------------------------|-----------|

|                        |        |
|------------------------|--------|
| <b>Steckverbinder:</b> | Buchse |
|------------------------|--------|

|                            |          |
|----------------------------|----------|
| <b>Steckverbinder-Art:</b> | männlich |
|----------------------------|----------|

|                     |    |
|---------------------|----|
| <b>Anzahl Pole:</b> | 64 |
|---------------------|----|

|                                |        |
|--------------------------------|--------|
| <b>Räumliche Orientierung:</b> | gerade |
|--------------------------------|--------|

|                             |     |
|-----------------------------|-----|
| <b>Elektrische Montage:</b> | THT |
|-----------------------------|-----|

|                                       |     |
|---------------------------------------|-----|
| <b>Steckverbinder-Ausgangssystem:</b> | a+c |
|---------------------------------------|-----|

|                                 |       |
|---------------------------------|-------|
| <b>Steckverbinder-Variante:</b> | Typ C |
|---------------------------------|-------|

**Leitungslänge:** 4mm

## Zusätzliche Informationen

**Bruttogewicht:** 0,01 kg
