## Parametri produs

|                                      |                |
|--------------------------------------|----------------|
| <b>Type of heatsink accessories:</b> | bucșă izolantă |
|--------------------------------------|----------------|

|                   |       |
|-------------------|-------|
| <b>Utilizare:</b> | TO220 |
|-------------------|-------|

|                      |       |
|----------------------|-------|
| <b>Dimensiune D:</b> | 6,2mm |
|----------------------|-------|

|                       |        |
|-----------------------|--------|
| <b>Dimensiune D1:</b> | 2,95mm |
|-----------------------|--------|

|                       |        |
|-----------------------|--------|
| <b>Dimensiune D2:</b> | 3,55mm |
|-----------------------|--------|

|                      |       |
|----------------------|-------|
| <b>Dimensiune H:</b> | 1,8mm |
|----------------------|-------|

|                      |       |
|----------------------|-------|
| <b>Dimensiune S:</b> | 1,2mm |
|----------------------|-------|

|                              |            |
|------------------------------|------------|
| <b>Temperatura de lucru:</b> | max. 130°C |
|------------------------------|------------|
